As you can tell!

storm in a tea cup - taste, quality, simplicity

That's what it's all about for us. From the crisp fresh taste of our peppermint tea to the gentle taste of our organic chun mee green tea, it's all now available for you to try - real, clean, refreshing tastes. We are now delighted to bring you our 'silky' storm pyramids so you can have the very best gourmet quality, organic tea for an official 'storm in a tea cup!'

real expertise

We source our teas from all over the globe for unrivaled taste, passion and commitment for example our organic camomile tea buds are selected from Egypt, organic rooibos sourced from South Africa, organic peppermint tea leaves from America, organic earl grey tea leaves from Sri Lanka and China to name just a few!

silky storm tea pyramids

To solve the problem of not always having time to make tea the 'proper' way we have scoured the globe to bring you tea pyramids made with our silky material. This allows the room needed for the tea leaves to swim around gently and infuse fully for a truly magical, hassle free gourmet tea.

*silk storm pyramids
now available in packs
of x15, mmmm...!*

eco friendly too

All of our printed literature and packaging has been sourced to ensure everything is 100% recyclable or biodegradable with only vegetable based printing inks used to minimise our impact on the environment - something we are really committed too.
